

## RATING ACTION COMMENTARY

# Fitch Affirms German Cooperative Banks and DZ BANK at 'AA-'; Outlook Stable

Tue 09 Apr, 2024 - 12:32 PM ET

Fitch Ratings - Frankfurt am Main - 09 Apr 2024: Fitch Ratings has affirmed Genossenschaftliche FinanzGruppe (GFG), its central institution DZ BANK AG Deutsche Zentral-Genossenschaftsbank (DZ BANK) and about 700 primary bank members of GFG's mutual support scheme, at their 'AA-' Long-Term Issuer Default Ratings (IDRs) with a Stable Outlook. GFG's Viability Rating (VR) has been affirmed at 'aa-'.

A full list of rating actions for all rated members of GFG is available below.

Fitch has withdrawn the ratings of 40 local cooperative banks because they no longer exist as separate entities following their merger with other members of the group.

## KEY RATING DRIVERS

**Leading German Retail and Commercial Group:** GFG's ratings reflect the group's leading and highly diversified business profile, strong risk-adjusted capitalisation, low leverage, sound asset quality, a record of profitability that is considerably better than most German peers', as well as its outstanding funding profile by international standards. GFG's VR is one notch above the implied VR, reflecting the high importance of its strong business profile for the rating.

**Mutual Support Mechanism:** GFG is not a legal entity, but a cooperative banking network whose cohesion is ensured by an institutional protection scheme (IPS) managed by the Bundesverband der Deutschen Volksbanken und Raiffeisenbanken e. V. (BVR). GFG's IDRs are group ratings that apply to each member bank, including its central institution DZ BANK and its subsidiaries.

**Diversified Business Model:** GFG's domestically-focused, stable universal banking business model has delivered stable profits over several economic cycles. It is based on its local banks' strong domestic retail and small SME banking franchise interlinked and supported by DZ BANK group's product providers. The latter includes domestic market

leaders in insurance, asset management, real estate, as well as DZ BANK's capital-market business. The business model benefits from a strong strategic alignment between DZ BANK and the local banks with intensified cooperation and cross-selling across GFG.

**Conservative Risk Appetite:** GFG's risk profile largely reflects the group's cooperative nature with a contained risk appetite. It is underpinned by granular credit exposures based on sound underwriting standards at primary banks, conservative securities portfolios and the benefit of liquidity pooling and transmission through DZ BANK.

DZ BANK's market risk is low and results from modest capital-market activities. GFG's decentralised risk- management structure provides adequate and effective risk controls. Unhedged interest-rate risk at the primary banks is high, resulting from asset/liability duration mismatches, which is a weakness.

**Sound Asset Quality; Deterioration Ahead:** GFG's sound asset quality remained resilient in 2023 including at the group's central institution despite macro-economic challenges. We expect impaired loans to modestly increase in the next two years, to up to 2% of gross loans due to rising insolvencies in the group's SME and commercial real-estate portfolios.

**Resilient Underlying Profitability:** GFG's operating profit recovered in 2023 to about 1.7% of its risk-weighted assets (RWAs), driven by reversals of temporary valuation losses (in 2022 from higher interest rates) on the banks' securities portfolios. In addition, the group benefited from higher net interest margins due to slow deposit repricing and healthy business volumes. In 2024 we expect lower operating profit, at about 1.3% of RWAs, due to primarily higher loan impairment charges, but also moderate credit growth and further deposit repricing.

**Sound Capitalisation:** The local banks and DZ BANK are both well-capitalised, and GFG's leverage ratio is high by international standards. We expect GFG's common equity Tier 1 (CET1) ratio to remain above 15% in the medium term, supported by traditionally high profit retention and slower loan growth than in previous years.

**Very Stable Funding:** The local banks are predominantly funded by granular, mostly price-insensitive domestic retail deposits, and their structurally large excess liquidity covers most of DZ BANK's short-term funding needs. Primary banks' customer deposit base was largely stable in 2023 despite a notable shift towards time deposits.

DZ BANK provides GFG with reliable access to wholesale markets as a frequent issuer of unsecured debt and the largest German covered bond issuer with an established and

geographically diversified investor base.

## **RATING SENSITIVITIES**

### **Factors that Could, Individually or Collectively, Lead to Negative Rating Action/Downgrade**

We could downgrade GFG's and its members' ratings if GFG's impaired loan ratio rises above 3% on a sustained basis, its average operating profit declines to below 1% of RWAs, or its regulatory CET1 ratio falls durably below 13%. A downward revision of our operating-environment score for GFG (aa-/stable) would also put pressure on its ratings.

### **Factors that Could, Individually or Collectively, Lead to Positive Rating Action/Upgrade**

An upgrade of GFG's and of its members' ratings is unlikely given the already high ratings and in light of significant economic and financial uncertainties. In addition to a domestic environment that would allow higher lending margins, an upgrade would also require greater cost efficiency, which is likely to necessitate further streamlining of the group's structure, especially at the local banks beyond the current merger activity, as well as better asset quality and higher capitalisation.

## **OTHER DEBT AND ISSUER RATINGS: KEY RATING DRIVERS**

GFG's and its members' Short-Term IDRs of 'F1+' map to their Long-Term IDR of 'AA-'.

The long-term deposit ratings and long-term senior preferred debt ratings of DZ BANK and its banking subsidiaries, the long-term deposit rating of Muenchener Hypothekbank, as well as DZ BANK's Derivative Counterparty Rating (DCR) are one notch above their respective Long-Term IDRs because of the protection provided by resolution buffers to preferred creditors. In our view, resolution would only occur in the extremely unlikely event that GFG's mutual support scheme fails to protect group members' viability.

The deposit ratings of Deutsche Apotheker- und Aerztebank and of the local cooperative banks are aligned with GFG's IDRs due to the absence of sustainable significant resolution debt buffers at these entities. Each local bank is regulated individually as a less significant institution. Consequently, the German regulator's preferred resolution strategy for these banks consists of standard insolvency procedures, as opposed to the preferred bail-in resolution strategy for the DZ BANK group and Muenchener Hypothekbank, each of which is directly under the authority of the European Single Resolution Board (SRB) and follows a single-point-of-entry approach. Therefore, the predominantly deposit-funded local banks have no incentive to build up resolution buffers. This is also the case for Deutsche Apotheker- und

Aerztebank, which is directly under the authority of the SRB, but is currently not required to maintain resolution buffers in excess of its capital requirements.

The ratings of the subordinated Tier 2 and additional Tier 1 notes (AT1) issued by DZ BANK and its subsidiaries are two and four notches below GFG's VR, respectively, which is the standard notching for this type of instruments under Fitch's criteria. We use the VR of GFG as the anchor rating as we believe that GFG, by protecting the viability of DZ BANK and its subsidiaries, increases the likelihood that all due payments on these notes will continue to be met.

**No Government Support Assumed:** GFG's Government Support Rating (GSR) of 'no support' reflects our view that extraordinary sovereign support for EU banks is possible but cannot be relied on due to the Bank Recovery and Resolution Directive and the Single Resolution Mechanism's resolution tools and mechanisms. It is likely that senior creditors will be required to participate in losses ahead of the group receiving sovereign support.

#### **OTHER DEBT AND ISSUER RATINGS: RATING SENSITIVITIES**

GFG's members' long-term debt and deposit ratings are sensitive to a change of GFG's Long-Term IDR. We could also downgrade DZ BANK's DCR and DZ BANK's and its subsidiaries' long-term senior preferred debt and deposit ratings and Muenchener Hypothekbank's long-term deposit rating if we no longer expect them to maintain senior non-preferred and junior debt buffers above 10% of the banks' respective RWAs on a sustained basis.

The ratings of the subordinated Tier 2 notes issued by DZ BANK and its subsidiaries are sensitive to a change in GFG's VR.

DZ BANK'S AT1 notes' rating would be downgraded if GFG's VR is downgraded. In addition, the notes could be downgraded if non-performance risk increases relative to the risk captured in GFG's VR, for example if the BVR rules out the possibility of coupon payments if DZ BANK receives extraordinary support from the mutual support scheme, or if DZ BANK's buffer over coupon omission triggers declines below 100bp. An upgrade of the AT1 notes would require an upgrade of GFG's VR.

We would upgrade GFG's GSR only if we see rising propensity from the sovereign to support systemically important banks, which is highly unlikely in the current regulatory environment.

#### **SUBSIDIARIES & AFFILIATES: KEY RATING DRIVERS**

DZ BANK subsidiaries' issuer and debt ratings are aligned with those of DZ Bank.

## **SUBSIDIARIES AND AFFILIATES: RATING SENSITIVITIES**

DZ BANK subsidiaries' issuer and debt ratings are sensitive to a change in DZ BANK's issuer or debt ratings.

## **VR ADJUSTMENTS**

The business profile score of 'aa-' is above the 'a' implied category score due to the following adjustment reason: business model (positive).

The earnings and profitability score of 'a' is above the 'bbb' implied category score due to the following adjustment reason: earnings stability (positive).

The capitalisation and leverage score of 'aa-' is above the 'a' implied category score due to the following adjustment reason: leverage and risk-weight calculation (positive).

The funding and liquidity score of 'aa' is above the 'a' implied category score due to the following adjustment reason: deposit structure (positive).

## **REFERENCES FOR SUBSTANTIALLY MATERIAL SOURCE CITED AS KEY DRIVER OF RATING**

The principal sources of information used in the analysis are described in the Applicable Criteria.

## **ESG CONSIDERATIONS**

The highest level of ESG credit relevance is a score of '3', unless otherwise disclosed in this section. A score of '3' means ESG issues are credit-neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity. Fitch's ESG Relevance Scores are not inputs in the rating process; they are an observation on the relevance and materiality of ESG factors in the rating decision. For more information on Fitch's ESG Relevance Scores, visit <https://www.fitchratings.com/topics/esg/products#esg-relevance-scores>.

## DISCLAIMER & DISCLOSURES

All Fitch Ratings (Fitch) credit ratings are subject to certain limitations and disclaimers. Please read these limitations and disclaimers by following this link:

<https://www.fitchratings.com/understandingcreditratings>. In addition, the following <https://www.fitchratings.com/rating-definitions-document> details Fitch's rating definitions for each rating scale and rating categories, including definitions relating to default. ESMA and the FCA are required to publish historical default rates in a central repository in accordance with Articles 11(2) of Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 and The Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019 respectively.

Published ratings, criteria, and methodologies are available from this site at all times. Fitch's code of conduct, confidentiality, conflicts of interest, affiliate firewall, compliance, and other relevant policies and procedures are also available from the Code of Conduct section of this site. Directors and shareholders' relevant interests are available at <https://www.fitchratings.com/site/regulatory>. Fitch may have provided another permissible or ancillary service to the rated entity or its related third parties. Details of permissible or ancillary service(s) for which the lead analyst is based in an ESMA- or FCA-registered Fitch Ratings company (or branch of such a company) can be found on the entity summary page for this issuer on the Fitch Ratings website.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed. Fitch Ratings makes routine, commonly-accepted adjustments to reported financial data in accordance with the relevant criteria and/or industry standards to provide financial metric consistency for entities in the same sector or asset class.

The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAA' to 'D'. Fitch also provides information on best-case rating upgrade scenarios and worst-case rating downgrade scenarios (defined as the 99th percentile of rating transitions, measured in each direction) for international credit ratings, based on historical performance. A simple average across asset classes presents best-case upgrades of 4 notches and worst-case downgrades of 8 notches at the 99th percentile. For more details on sector-specific best- and worst-case scenario credit ratings, please see [Best- and Worst-Case Measures](#) under the Rating Performance page on Fitch's website.

The information in this report is provided “as is” without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001. Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the “NRSRO”). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are

not listed on Form NRSRO (the “non-NRSROs”) and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.

dv01, a Fitch Solutions company, and an affiliate of Fitch Ratings, may from time to time serve as loan data agent on certain structured finance transactions rated by Fitch Ratings.

## **SOLICITATION STATUS**

The ratings above were solicited and assigned or maintained by Fitch at the request of the rated entity/issuer or a related third party. Any exceptions follow below.

## **ENDORSEMENT POLICY**

Fitch’s international credit ratings produced outside the EU or the UK, as the case may be, are endorsed for use by regulated entities within the EU or the UK, respectively, for regulatory purposes, pursuant to the terms of the EU CRA Regulation or the UK Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019, as the case may be.

Fitch’s approach to endorsement in the EU and the UK can be found on Fitch’s [Regulatory Affairs](#) page on Fitch’s website. The endorsement status of international credit ratings is provided within the entity summary page for each rated entity and in the transaction detail pages for structured finance transactions on the Fitch website. These disclosures are updated on a daily basis.
